**DETAILED ACTION**

The amendment of 6/16/04 amended the specification and claims 1, 3, 4, 5 and 7.

Claims in the application are 1-8, 11 and 12.

5 In view of claims 1-3 being found allowable, and on further consideration of the restriction requirement, the restriction requirement is withdrawn, and claims 4-8, 11 and 12 are rejoined with claims 1-3.

Claims 4-8, 11 and 12 would be allowable if amended as suggested  
10 below to overcome the following rejection.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

***Claim Rejections - 35 USC § 112***

Claims 4-8, 11 and 12 are rejected under 35 U.S.C. 112, second  
15 paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 4 is unclear in line 2 of step (c) by not specifying whether the scale for 30<sup>0</sup> is centigrade or Fahrenheit.

20 Claims 5 (line 1) and claim 7 (bridging lines 1 and 2) are confusing and unclear by reciting "porous bone substitute or tissue engineering scaffold" since it is uncertain as to whether the bone substitute and tissue engineering scaffold differ, or are the same. It is further unclear as to whether "porous" applies to both the bone  
25 substitute and tissue engineering scaffold or to only the bone

substitute. Additionally, it is unclear as to whether "scaffold" applies to both "porous bone substitute" and "tissue engineering" or only to tissue engineering. To be clear, it is suggested that "porous bone substitute or tissue engineering scaffold" be changed to ---

5 porous scaffold for use as a bone substitute or in tissue engineering ---.

In line 2 of claim 6, "such as" makes unclear as to whether the proteins are required. It is suggested that line 2 be amended by replacing ", such as" with --- selected from the group consisting of -  
10 --, replacing "and" with a comma, and changing "as well as" to --- and ---. In line 3, "multiple" should be deleted since the meaning of "multiple glycoproteins" is uncertain.

In line 1 of step (c) of claim 7, --- the solution --- should be inserted after "pouring" to be clear as to what is poured. In line 2  
15 of the step, the temperature scale (centigrade or Fahrenheit) for the temperature range recited should be specified.

In line 1 of step (d) of claim 7, "scaffold" should be replaced with --- solution --- since a scaffold does not result until after dioxane is removed. With this change, line 2 should be amended by  
20 after "dioxane" inserting --- to obtain said scaffold ---.

In line 1, claim 8 is confusing by reciting "porous bone substitute scaffold" which is inconsistent with the preamble of claim 7 on which claim 8 depends. It is suggested that "porous bone substitute scaffold" be replaced with --- porous scaffold --- to be  
25 consistent with the change to the preamble of claim 7 above.

Art Unit: 1651

In line 3 of claim 11 and line 2 of claim 12, "claims" should be change to --- claim --- since the claims are alternative.

Claim 12 is unclear by not requiring a step of culturing as required in the preamble. It is suggested the claim be amended after  
5 "osteocytes" in line 2 by inserting --- , and culturing said osteocytes in the presence of said scaffold ---.

### **Conclusion**

Claims 1-3 are allowed.

Claims 4-8, 11 and 12 are free of the prior art.

10 **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date  
15 of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,  
20 however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
